WORK EXPERIENCE

01/09/2023 – CURRENT Bursa, Türkiye
RESEARCH ASSISTANT TÜBITAK

Within the scope of the TÜBİTAK project, where I predicted earthquakes using GNSS (Global Satellite Station Coordinate Data) data, I carried out research and development with MATLAB using machine learning and deep learning applications. In this process, I developed various algorithms and methods to create earthquake prediction models by processing large data sets. Additionally, I gained in-depth knowledge and experience in data analysis and model optimization.

09/09/2023 – 10/01/2024 Bursa, Türkiye
INTERN FLUTTER DEVELOPER LOG FIND SOLUTIONS FOR TECHNOLOGY

During the project process, a modular application was developed by combining diagram and workflow tools. In this project, I was successfully involved in using various features and methods of Flutter to provide an interactive experience to the user.

07/07/2023 – 09/09/2023 Antalya, Türkiye
INTERN .NET CORE DEVELOPER MORPHOSIUM SOFTWARE

I learned how monolithic and microarchitectural structures can be developed with .Net Core. During this process, I had the opportunity to understand the fundamentals of modern software architectures and how these structures can be applied in projects. In particular, by experiencing the transactions between the API layer, service layer and data layer, I had the chance to learn how these layers interact with each other and how data flow is ensured.

07/07/2022 – 09/09/2022 Bursa , Türkiye
INTERN FLUTTER DEVELOPER LOG FIND SOLUTIONS FOR TECHNOLOGY

By learning the basic building blocks of the Flutter framework, I gained in-depth knowledge about developing user-friendly and high-performance mobile applications. I had the opportunity to successfully manage projects by increasing the synergy within the team with effective communication and collaboration, together with Agile methods and the Scrum framework.

EDUCATION AND TRAINING

29/08/2020 – 14/06/2024 Amasya, Türkiye
COMPUTER ENGINEERING Amasya Üniversitesi

3rd place in computer engineering faculty.

Website https://www.amasya.edu.tr | **Field of study** Engineering, manufacturing and construction | **Final grade** 3,22 |

Type of credits ECTS | **Number of credits** 248 |

Thesis Developing an earthquake prediction algorithm using Time-Resolved GNSS data

LANGUAGE SKILLS

Mother tongue(s): **TURKISH**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B1	B1	B1
GERMAN	A1	A2	A2	A2	A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

MS Word | Flutter Dart | UNREAL ENGINE | Artifical Intelligence | Machine Learning | Deep Learning

DRIVING LICENCE

Driving Licence: B
